

Dear Young Person,

I went to a lovely workshop which
me to write you a letter. My writer is
terrible but I am still doing it.
I thought about my life and the things
I loved to do as a child.

I was brought up to love animals.
I used to go to the zoo a lot and
to a park that had lots of
deer. I loved the deer who had
wet noses and I love them,
they reminded me of Bambi, my
favorite film.

I love all the animals in the zoo.
I love the Okapi and the Toucan.
I loved going to the Reptile House at London
Zoo. I went with my family
and my God father who is now
passed away - I miss him.
But I still love animals - Have a good time
Viv
